Discussion: If project time is shortened, generally there will be sharp increase in cost. Why?

Twenty/Eighty (20/80) Rule

- **(For an organization) 20% of employees do 80% of the work!**
- **(For an individual) In 20% of quality time I do 80% of quality work!**
- **(Is the following true for a software system?) 20% of programs do 80% of the work!**
