Test Cases

Your tests should look like the following:
===

test no	description	input	expected output	date tested	problem	solution
test 2 WhiteBox	unit test user login	dates in WD	error message displayed			
test 15 BlackBox	func test new event	event in ED	new calendar is displayed			
test304 BlackBox	system test	power up	initial window appears			

===

Notes: WD is the equivalence class for Wrong Dates
       ED is the equivalence class for Event Data
